

## Changing WordPress Site Title and Tagline

To change the WordPress site title and tagline, navigate to **SETTINGS** then to **GENERAL**.

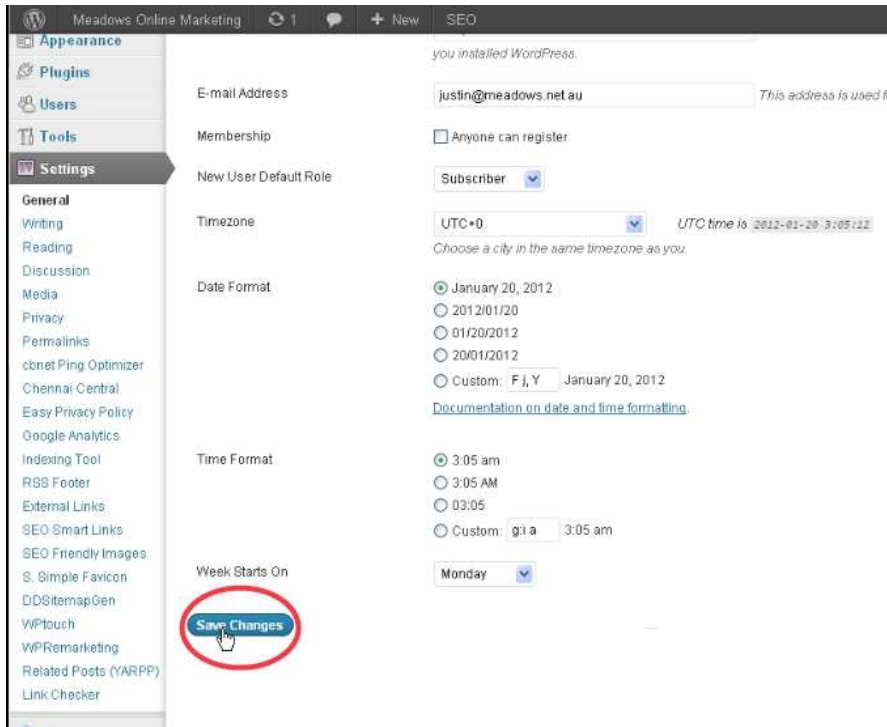

This is the **General Settings** screen.

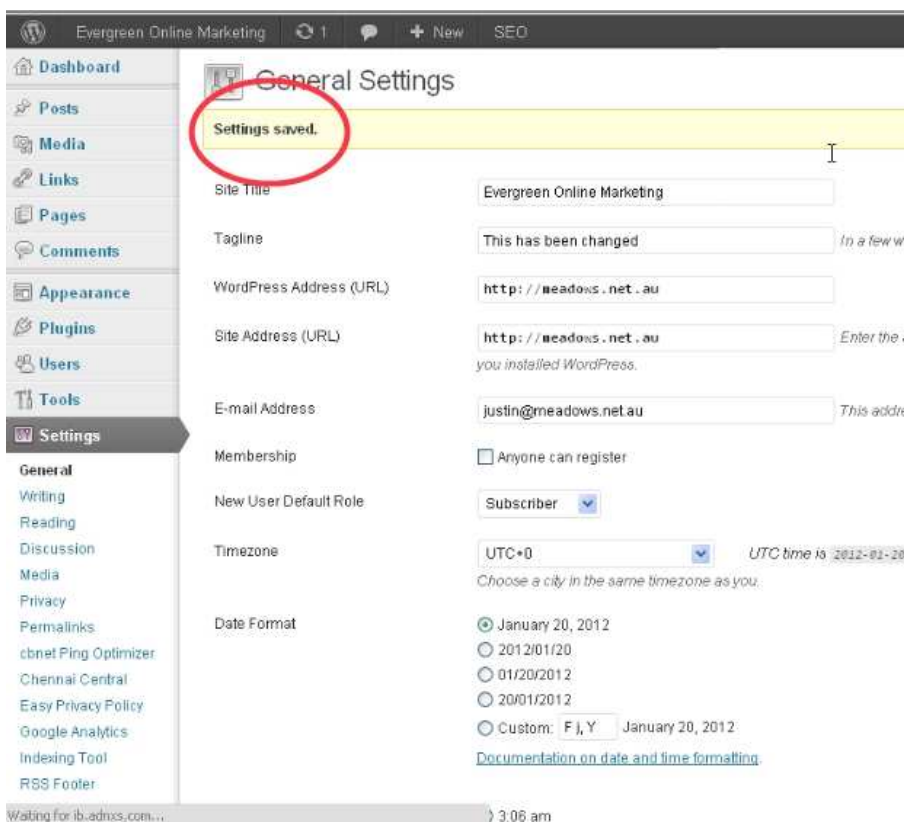

To change **Site Title**, type on the field provided.

To change **Tagline**, type on the field provided.

You can also change other details on this page like the **Admin Email Address, Membership Type, Time Zone, Date Format, Time Format** and **Week Starting Day**.

After the entries or changes, be sure to click on **SAVE CHANGES**.

WordPress will give notification that the settings are saved.
